This Contribution Agreement (the "Agreement") is effective as of December 31, 2001 (the "Effective Date") at 11:59 PM United States of America EST (the "Effective Time") by and between Intersil Communications, Inc., a Delaware corporation ("Intersil"), and Intersil Americas Inc., a Delaware corporation ("Intersil Americas").

Background

To promote greater efficiency and economy in the management of the businesses carried on by the parties to this Agreement, Intersil desires to make a capital contribution to Intersil Americas of certain intellectual property and other assets used in the business of Intersil and its affiliates.

Terms

Intending to be legally bound, the parties to this Agreement agree as follows:

1. Effective as of the date first written above, Intersil shall contribute the following to Intersil Americas, in deemed exchange for stock of Intersil Americas in a non-recognition transaction as described in Section 351 of the Internal Revenue Code of 1986, as amended:

(i) all right, title and interest in and to the trademarks shown in Schedule A and all slogans, logotypes, designs, and trade dress associated therewith (the "Trademarks"), together with the U.S. federal registrations and applications for registration of the Trademarks, in and to all income, royalties, damages and payments now or hereafter due or payable with respect thereto and in and to all rights of action arising from the Trademarks, to be held and enjoyed by Intersil Americas for its own use and benefit and for its successors and assigns as the same would have been held by Intersil had this contribution not been made, and the goodwill of the business symbolized by the Trademarks;

(ii) all right, title and interest in and to the U.S. patents and patent applications shown in Schedule A (the "Patents"), including all reissues, divisions, continuations, continuations-in-part, and extensions thereof, to be held and enjoyed by Intersil Americas as fully and entirely as they would have been held and enjoyed by Intersil if this contribution had not been made, including all licenses of and proceeds from the Patents, all claims, demands and rights to recovery that Intersil has or may have in profits and damages for past and future infringements, if any, and all rights to compromise, sue for, and collect such profits and damages;

(iii) all right, title, and interest in and to all inventions shown in Schedule A (the "Inventions"), and all intellectual property rights relating thereto, including, without limitation, trade secret rights in the Inventions, and all rights of action arising from the Inventions, to be held and enjoyed by Intersil Americas for its own use and benefit and for its successors and assigns as the same would have been held by Intersil had this contribution not been made; and

(iv) all right, title, and interest in and to all copyrights owned by Intersil as of the date first written above that are not otherwise excluded from contribution under the terms of this Agreement, whether or not such copyrights have been registered (collectively, the "Copyrights"),

including, without limitation, all U.S. registrations and applications for registration of the Copyrights, all licenses of and proceeds from the Copyrights, all publishing, electronic publishing, and other proprietary rights arising from or related to the Copyrights, all causes of action relating to the Copyrights that may have arisen prior to this contribution, and any recovery resulting from such causes of action.

Notwithstanding the foregoing or any specific item listed on Schedule A, the intellectual property used in connection with providing products or services that are regulated by the United States Department of State shall not be contributed to Intersil Americas.

2. Intersil and Intersil Americas shall each take any and all additional actions as may be necessary or appropriate to effect the transactions contemplated by this Agreement.
